Billing & Payments FAQ

Answers to common questions about bills, payments, and recharges.

Understanding Your Bill

When is my postpaid bill generated?

Postpaid bills are generated on a fixed date each month, assigned when your connection was activated. You can find your exact bill date under My Account > Billing in the Lauki app. An SMS and email reminder are sent 3 days before the payment due date.

What is included in my monthly bill?

Your bill includes your base plan charge, any add-on packs purchased during the cycle, applicable taxes (GST), and any late payment fees carried over from a previous cycle. A full itemized breakdown is available in the Lauki app under Bill Details.

Why is my bill higher than my plan price this month?

This is usually caused by one of three things: an add-on data or roaming pack purchased mid-cycle, usage charges from exceeding your plan's voice or SMS limit, or a prorated charge from switching plans partway through the billing cycle. Check Bill Details in the app for a line-by-line breakdown, or ask a Lauki support agent to walk through it with you.

How do I check my current data, voice, and SMS usage?

Open the Lauki app and go to My Account > Usage. Usage updates within a few hours of actual use. You can also check usage by calling customer support and providing your registered phone number.

Payment Methods

What payment methods are accepted?

Lauki accepts UPI, debit and credit cards, net banking, and cash payments at authorized Lauki retail stores. Postpaid bills can also be set up for automatic payment via UPI Autopay or card auto-debit for automatic on-time payment.

Can I set up automatic bill payment?

Yes. Go to My Account > Autopay in the Lauki app and link a UPI ID or card. Once enabled, your bill is paid automatically on the due date each month, and you'll receive a confirmation SMS after each payment.

Is there a fee for paying my bill?

No, Lauki does not charge any convenience fee for payments made through the app, website, or UPI. Payments made in cash at third-party retail outlets may carry a small handling fee set by that retailer, not by Lauki.

Late Payments & Fees

What happens if I miss my postpaid due date?

A grace period of 5 days is provided after the due date. If payment is not received within this window, outgoing services (calls, SMS, data) may be temporarily suspended until the bill is paid. Incoming calls generally remain active for a further 15 days.

Is there a late payment fee?

Yes, a late fee of Rs. 50 is added to your next bill if payment is not received within the 5-day grace period. This fee is waived if you have Autopay enabled and the delay was due to a failed automatic transaction (contact support to confirm eligibility).

My service was suspended for non-payment. How do I restore it?

Pay the outstanding bill in full through the Lauki app, website, or a retail store. Services are typically restored within 30 minutes of a successful payment. If service is not restored after an hour, contact support and reference your payment confirmation ID.

Prepaid Recharges

How do I recharge my prepaid number?

Recharge through the Lauki app, website, UPI apps that support mobile recharge, or any authorized Lauki retail store. Recharges are applied instantly in almost all cases.

What happens if my prepaid plan expires?

Once your plan validity ends, outgoing services are stopped, though your number remains active to receive incoming calls for a further 30 days. Recharge before this window closes to avoid losing your number permanently.

Can I get a refund for an accidental recharge?

Recharges are generally non-refundable once applied. If you recharged the wrong number or selected the wrong plan by mistake, contact support within 24 hours — refunds are evaluated case by case and are not guaranteed.

Refunds & Disputes

I was charged for something I don't recognize. What should I do?

Open the Lauki app, go to Bill Details, and locate the charge in question. If it's still unclear, use the 'Raise a Dispute' option next to the charge, or ask a support agent to escalate it. Disputes are typically resolved within 5 business days.

How long do refunds take to process?

Approved refunds are credited back to the original payment method within 5 to 7 business days. Refunds to prepaid account balance (instead of the original payment method) are applied instantly once approved.

Switching Plans

Can I switch plans in the middle of a billing cycle?

Yes. Postpaid customers who switch mid-cycle are billed a prorated amount for each plan based on the number of days used. Prepaid customers switching plans will have their new plan take effect once the current plan's validity expires, or can request an immediate switch by forfeiting the remaining validity of the current plan.

Can I switch between prepaid and postpaid?

Yes. This requires a short verification process and can take up to 48 hours to complete. Start the request from My Account > Plan > Switch Connection Type in the Lauki app, or visit a Lauki retail store with a valid ID.
